Keywords: education, education, student, method, school, program, state, non-state, technology, programs.

The foundation of the continuous training system in the Republic of Uzbekistan, social economic development provider, person, society and State, Scientific and technical and cultural a priority area that meets the needs of a creative, socially active, spiritual rich person it creates the necessary conditions for the formation and intensive training of highly qualified competitive personnel.

Today, continuous training in the Republic of Uzbekistan includes the following types of training includes preschool and education, general secondary and secondary special education, professional Education, Higher Education, further education, retraining of personnel and their qualification increase, extracurricular education. The new revision of the law on the educational barrier is exactly.

In the direction of the general development of the preschool educational organization of the general type, implementation of the state educational program of preschool education and education in its groups will be provided.

Sh. M. Mirziyoyev became the first president of the Republic of Uzbekistan as early as the activity; a number of works were carried out on the reform of the preschool education system increased.

Head of State Shavkat Mirziyoyev —preschool education system continuous primary, the most basic link in education. Children aged 5-6 years in the next 3-4 years we are obliged to achieve full coverage of all preschool education. This is the solution of our tomorrow a matter to do, and we will definitely do it, - the life Call

of each of us, it has taken a strong place in the minds and hearts of parents and the public. In this area the large-scale work carried out, in particular, on education and education, was adopted bringing nationwide programs to a logical conclusion, giving a thorough education to the younger generation, making them the most important task is to educate as physically and spiritually mature people.

Cabinet of Ministers of the Republic of Uzbekistan —preschool educational organizations preschool organization-public and non-state preschool of the general type organization. The state preschool organization is a state-run organization that the state that admires the development of children of the first and post-school age to be funded organization providing preschool services in accordance with the requirements non-governmental preschool organization. In the manner prescribed by law development of children of early and post-school age operating under license legal provision of preschool education services in accordance with the requirements of the state person;

-Non-governmental preschool education organizations are organized based on the following decisions

-On measures to establish non-state preschool educational institutions

- Establishment of non-state preschool educational institutions based on Public Private Partnership about Uz. Res. Presidential resolution PQ-3651 of April 5, 2018.

Further expansion of forms of Public-Private Partnership in preschool education resolution of the Cabinet of Ministers of November 23, 2018 dated 944 on measures. Of course, introducing innovations in the composition of training advanced working methods and techniques application leads to an increase in the quality of Education. This in turn requires professional skill from the educator will. Educational process in state and non-state preschool educational organizations the state in which children of the first and preschool age are put into development in accordance with the standard requirements and-the first step is planned on the basis of the state program. (State standard.2020.22- December).

According to this, the series on the preschool system at the end of the 2020-2021 academic year application of decisions and decrees in places, established state and non-governmental organizations the number of children enrolled in preschool education was 62%.

In conclusion, it is worth saying that preschool educational organizations are state and non-state further expansion of its networks is a requirement of today. State and non-state preschool the increase in the number of organizations is the impetus for the formation of a healthy competitive environment. Educator knowledge, skills

increase the ranks of ingenious children in the preschool organization. Our goal is the comprehensive intellectual, moral, aesthetic and physical development of children creating conditions, improving the quality of preschool education, in preschool educational organizations introduction of modern educational programs and technologies in the qualitative preparation of children for school it consists of making. Introduction of new forms of preschool educational organizations in places, improving the conditions, increasing the capacity of Educators of the preschool educational organization today considered one of the urgent tasks of the day.
